

Plastic Recycling Opportunity

1 March 2010

Dear Recycling Entrepreneur,

For over a decade, on the third Saturday of each month, the Fairfield Gonzales Community Association (FGCA) has successfully operated a plastic Recycling program. This volunteer-run program is somewhat more comprehensive than the Blue Box program in that we can accept a much wider variety of clean plastic materials. However, changing conditions require that we now re-examine the ways in which we currently maintain our commitment to recycle plastic.

We are therefore seeking a motivated contractor with the ability to pick up, haul and recycle our plastic materials. These services would be required at our two collection sites once per month. In total, the two sites typically raise over \$2,000 per month in donations to off-set recycling costs.

The FGCA plans to issue a Request for Proposals to all those expressing interest in this project. We are aware of your work in this sector and ask you to express your potential interest in this contracted work by Friday March 12. You can reach the FGCA at 250-382-4604 or email your interest to place@fairfieldcommunity.ca subject line plastic recycling.

Sincerely,

Blair Humphrey
President
Fairfield Gonzales Community Association
